Protecting What Matters

Easily convert your open plan office to a more secluded environment with Trendway's new acrylic screens. There are many options to choose from to quickly retrofit your space when it's time to get your team back to the office — safely. Available in Single and U-Shaped Styles, select the size, optional features, aesthetic style and mounting option you want. These simple additions will quickly reduce the risk in your office, and provide peace of mind.

Single Screens | Post Style Bracket

A single acrylic panel screw mounts onto the work surface. With heights from 24" to 36" and widths of 24" to 72", adapt almost any workstation with division to minimize risk. Available in frosted and clear options for varying levels of privacy. Optional 4" access slot is also available.

U-Shape Screens | Post Style Bracket

With a U-shape design for more complete coverage, these can be screw or adhesive mounted onto the work surface. Available in heights from 24" to 36", Depths of 24" or 30" and widths from 36" to 72", these screens easily retrofit most office layouts. Choose from frosted or clear for the right level of privacy. Optional 2" raised gap for wire management or 4" access slot can also be selected.

U-Shape Screens | Low Profile Bracket

For a cleaner look, select the low-profile bracket design that has an optional 4" access slot for paper. These U-shaped screens mount with adhesive on the work surface for quick retrofits. Available in heights of 24" or 30", depths of 24" or 30" and widths from 36" to 72", quickly retrofit your workspace for safety and security.

Acrylic Screen Dimensions | Post Style Bracket

Model SCNSMPU482430
48"Wx24"Dx30"H

Work surface needs to be a minimum of 45.75"W x 21.43"D to fit this screen model.

All screen dimensions are identical between adhesive and screw mounting methods.

Acrylic Screen Dimensions | Low Profile Bracket

Model SCNTDMU482430
48"Wx24"Dx30"H

Work surface needs to be a minimum of 45.75"W x 21.87"D to fit this screen model.

Cleaning Instructions for Acrylic Screen

First time setup: Do not attempt to clean immediately after removing the protective paper because the static electricity will attract dust and particles. Wait a day for the static to dissipate before cleaning.

Step 1

Begin by removing excess dust or dirt from the surface of the acrylic with an air hose or blow dryer set to its coolest setting (never heat acrylic). Hold the blow dryer at a 45-degree angle several inches away from the acrylic and run side-to-side down the surface. Wipe any remaining dust with a soft, lint-free cotton microfiber cloth.

Step 2

Once excess grime has been blown away, spray a nonabrasive acrylic cleaner, such as Brilliantize or Novus No. 1 onto a one- or two-foot-square section of acrylic. (For an on-hand alternative, a solution of mild dish soap and water works well too.) Never use abrasive cleaners or anything containing Ammonia such as Formula 409®, Windex® or Fantastik®. Ammonia will cause your acrylic to get cloudy and you can't reverse the effects. Bleach solutions and disinfectants are not recommended and can cause damage to the acrylic.

Once the cleaner has been applied, use a soft, lint-free cotton microfiber cloth to gently wipe the surface down, again being careful to make contact only with the portion of the surface that already has cleaner on it. Continue applying the cleaner and wiping it off in small sections until you've finished the entire surface. Do not use a paper towel to clean acrylic because it can cause scratching.
